Memo to File:

Re: Sapphire Corporation  
Spectrum Quarry  
Millard County, Utah  
ACT/027/003

Ms. Aleda Jensen of Sapphire Corporation called today in response to the Division's letter of February 1, 1980 requesting the posting of the reclamation surety for the Spectrum Quarry or face having to appear before the Board in March. She stated that Sapphire Corporation has been involved in a lawsuit with Merd Corporation, the former operator of the Spectrum Quarry under a lease agreement with Sapphire Corporation. Ms. Jensen also said there has been no activity allowed at the quarry until the matter has been resolved by the court. Consequently, they haven't been able to get the surety as required. She was advised to detail the circumstances and inform the Division of Sapphire's suspension of operations with a letter.
